The Facts About Kidney Disease

8TH

Kidney disease is the 8th leading cause of death in the United States and is responsible for 58,000 deaths per year, as of 2023

1 IN 7

1 in 7 US Adults have kidney disease, which equates to 37 Million individuals or 15% of the US adult population

1 IN 3

1 in 3 US Adults are at risk for developing kidney disease. That equates to over 80 Million individuals.

90%

Sadly, 90% of those living with kidney disease do not even know he/she/they have it.

Even worse, 40% of those with severe kidney disease don't know they are suffering.

Kidney disease is a silent epidemic that we need your help to fight.

A CHARITABLE EVENING FOR A BETTER TOMORROW

Now in its 44th year, the National Kidney Foundation Kidney Ball is one of the nation's largest fundraising galas in support of the fight against kidney disease, raising more than \$5 million in the past decade. The Kidney Ball shines the spotlight on this national health crisis that impacts **1 in every 7 Americans** and serves as a call to action for the community to engage in spreading awareness and assisting those in need.

The National Capital region has among the highest rates of kidney disease in the nation. Your support helps fund the National Kidney Foundation's ongoing programs in research, patient and community services, professional and public education, local, state, and federal advocacy, and raising awareness about organ donation and transplantation.

Attendees will enjoy a cocktail reception, elegant three course dinner, robust silent auction, inspiring mission appeal & award ceremony, live entertainment, and networking with some of the National Capital Area's top business, government, and medical leaders, as well as kidney patients and their families.

Can we count on your support?

About the National Kidney Foundation

The National Kidney Foundation is revolutionizing the fight to save lives by eliminating preventable kidney disease, accelerating innovation for the dignity of the patient experience, and dismantling structural inequities in kidney care, dialysis, and transplantation.
